

Franciscan Hospital  
for Children

# Kennedy Hope Academy

A residential school for  
children with specialized needs

## ABOUT KHA

Since 2000, KHA has offered individualized services tailored to meet the highly varied needs of children with autism spectrum disorders, developmental disabilities and challenging behaviors. KHA utilizes Applied Behavior Analysis (ABA) to provide effective, evidence-based programming to all students.

## WHAT'S NEW AT KHA?

- Program expansion to a 17-bed residential school.
- Children, ages 5-21, are now accepted for admission (previously ages 5-18).
- Three-floors of renovated and enhanced living space to accommodate individuals who require private rooms.
- Improved indoor and outdoor recreational areas.
- Expanded academic center including vocational kitchen and group rooms.
- Specially designed sensory rooms.
